

The Michaelite Special Edition

Saint Michael Academy Alumnae
Association (SMAAA)

"Round his flag we'll rally ever.
Nothing can our union sever."

Is There a Future for the SMAAA?

Remember when we learned that [Saint Michael Academy](#) was closing abruptly? Some of us thought, "If we only knew, maybe we could have done something to save it!" Well, this is a heads up that **the St. Michael Academy Alumnae Association and Charitable Foundation is at risk of closing**, but here is your opportunity to do something to help us continue.

Eleven years. It's been eleven years since our beloved alma mater closed its doors forever. But, as the saying goes, when God closes a door, He opens a window. And that window became the St. Michael Academy Alumnae Association and Charitable Foundation.

Over these last eleven years, we have endeavored to keep us connected through periodic newsletters, the website, annual reunion luncheons, and trips to the Mount, and sought to continue the legacy of the [Presentation](#)

[Sisters](#) by raising funds to provide scholarships to underprivileged girls seeking a Catholic high school education in the city.

All of this work has been done for the last eleven years by a very small group on the Board of Directors. It has been a labor of love but **several of our core members are leaving and unless more alumnae join the Board and help to continue the work, we will be forced to "go out of business"**.

During the pandemic, our monthly in-person meetings have become Zoom meetings. We anticipate that this will likely continue to be the case moving forward. Our Board members are far flung, spanning the country from Georgia to Hawaii. So, as you can see, distance is not a big problem for us.

Bottom line...

If you have a desire to keep this alumnae association going, and if you have some time to devote to this continuing adventure, if you can stuff envelopes, monitor emails or have a knowledge of Constant Contact, if you love the idea of giving an eighth grade girl a leg up in high school, or if you just want to help keep hundreds of alums connected to each other in some small way....then please join us.

We need to hear from you. Soon, please.

Thank you, all.

Meet Our Most Recent Graduate!

SMAAA Charitable Foundation scholarship recipient, Tamia R., will be heading to the University of Albany in just a few weeks. Her mother writes, "...words can't express enough how much Tamia and I appreciated the financial support over the past 4 years. It really made a difference."

Transcripts

All of the St. Michael High School, Elementary School and Academy student records have been moved from the St. Michael Rectory on 34th Street to the Archdiocese Archives department. They will handle transcripts going forward.

Former students seeking transcripts should go online:
